

Our Relations to the Reform Party—A Liberal and Progressive Democracy.

In the debates which we have read in connection with the present reform movement, expressions have been used which render proper this declaration on our part. As a DEMOCRATIC JOURNAL, we gave our assent to the propositions of the Press Conference. We have regarded it as for the Democratic party to abandon the contest as to the political status of the colored citizen of the United States. In this, it seems, we did but anticipate the action of the Ohio Democracy, which has wisely waived this issue with their opponents and moved to better and fresher fields of encounter. So, too, as a DEMOCRATIC JOURNAL, we advocate the movement for reform. As we interpret the movement in its integrity, it is a combined effort of all men, opposed to the present corrupt regime, for a better administration of our public affairs. It seeks the union of Democratic reformists and Republican reformists for the relief of South Carolina in her extremity. In becoming, in good faith, an advocate for reform, we at least do not sink our valued association with that national organization, which, under the name of Democracy, holds to those great principles of government which receive the assent of our judgment.

We are for reform and for political co-operation with all ready to embark under its banner, but as before, so now, we stand in general political faith upon the firm ground of a liberal and progressive Democracy.

The special politics of this journal are for reform in South Carolina, and we invite the co-operation of all men disposed to seek the same end. The general politics of this journal are for a PROGRESSIVE DEMOCRACY AND INDUSTRIAL PROGRESS. In our special and general politics, we are for the acknowledgment of the rights now secured to colored men by law—as the best solution of a vexed question.

DIPLOMATIC RUMOR.—Strange rumors are circulating among the diplomatic circles of Europe. One of them is, that the King of Prussia aims at being crowned Emperor of North Germany; and another that Louis Napoleon, fretting under the unstable tenure of his office, and anxious to create a diversion, meditates a move on Belgium or on the Rhine, for the purpose of checking Prussian ambition. It is likely that the tranquility of Europe will not be disturbed for some time to come; but while the present incumbent remains on the French throne, and is haunted by his evil conscience and goaded on by his fears, there is no moral guarantee for the preservation of peace. The alliance between Russia and Egypt is no secret to attentive observers of Eastern affairs. The Khedive would never have displayed so much pluck if he had not been backed up by Russia, and if he had not also some reason to count upon the support of France. Russia is not likely to recede from her traditional policy, and the Egyptian conflict affords a fine opportunity, which the Emperor Alexander seems inclined to improve. Great Britain, with her complications with the United States and in Ireland, and with the Russian rivalry for Asiatic supremacy, is, for the present, in a most perplexing condition, which is exceedingly encouraging to the Russian, French and Egyptian enterprises.

THE IRISH LAND BILL.—The Irish land bill has passed the Commons, and will probably pass the Lords. It will afford great relief to the poor tenantry of that unhappy island. It saves them from exorbitant rents, which the landlords have been accustomed to impose whenever it seemed possible for the tenants to pay them and not to starve to death. It also saves them against the power of the landlords of annulling leases without a year's notice. It is, so far as it goes, a land reform for Ireland. It is but the commencement of land reform on a more extended scale.

THE FENIANS.—Secretary Fish has received a congratulatory note from Mr. Thornton, the British Minister, in reference to the strict maintenance of neutrality by this Government. Attorney-General Hoar says the rigor of the law will be meted out to O'Neil and the other captured Fenian leaders, but the administration is disposed to be lenient towards the private, who are considered dupes.

Before the close of the present year Milwaukee will be the eastern terminus of over two thousand miles of railway. A few years ago Milwaukee stood on the western verge of civilization.

A violent earthquake has visited the State of Oaxaca, in Mexico, killing 103 people and wounding many others. The earthquakes extended to the mines, where people were also killed.

DELEGATES APPOINTED FROM EDGEFIELD.—At the public meeting held in Edgfield to nominate delegates to the June Convention, 8 colored and 7 white delegates were appointed. The Advertiser says:

The speeches made by Gen. Butler, Maj. Gary, Maj. Bacon and Mr. Youmans, on this occasion, were, one and all, able, honest, and truthful, and all in the same strain and to the same end, viz. that of opening the eyes of the negroes to their true interests, to the selfishness, knavery and dissimulation of the great mass of the radical party of the State, and to the honesty and good intentions of the reform party. Gen. Gary, who has taken no part in politics since the war, appeared only after repeated calls from the meeting. He declared himself an uncompromising old school Democrat, totally opposed to acquiescing, only so far as we are absolutely obliged, in either the 13th, 14th, or 15th amendments, totally opposed to negro suffrage, and willing to wait and suffer until dooms-day, rather than swerve from the pure doctrines of the Democratic party.

Mr. P. A. Eichelberger, the leading radical of this section, was present at the meeting—or rather hanging upon its outskirts—and was called upon loudly for his views, with many assurances previously given, that respect, toleration, and fair-play will be the order of the day. Mr. Eichelberger, however, did not respond. He and certain of his agents and myrmidons were working like beavers in the after part of the day, to undo the work of the morning's speeches.

And now Edgfield, having put herself among the ranks of those moving for a reform in the Government, can only hope that the wise action of the Convention will be productive of such Reform.

In anticipation of a war, the European Governments are buying up all the breadstuffs in the New York market. A correspondent of the New York Courier-Journal says:

War in the East of Europe is among the immediate probabilities of the Summer. Russia is again regarded as an aggressor by the Western Powers, and it is believed that Prussia this time will join France in preventing the Czar from dealing a death-blow to Turkey. It is evident that the Egyptian Viceroy's preparations for war against Turkey are openly encouraged and aided by Russia, and the Crimean war may have to be fought over again to keep the Czar out of Constantinople.

Henry Bayne, the negro shot in the Macon guard house, on Sunday night, while attempting to escape, had just been arrested on Saturday, charged with general larceny. A large amount of stolen goods were recovered, among them a fine horse, bridle and saddle, and a gold watch worth \$200. At the time of his arrest, he was running a plantation at station No. 1, on the South-western Railroad, and had several hands employed, whose wages he paid out of his stealings. Just before he died, he proposed to tell, if raised up, where he had a valise concealed containing \$500. When raised up, his speech failed him, and he expired almost immediately.

DESTRUCTIVE HAIL STORM.—We regret to learn that, on the 3d instant, a destructive hail storm visited that portion of Pickens County, North of the Court House. The crops on the plantations of James E. John, and Mrs. Hagood, and James Griffin were destroyed. Others in the neighborhood also suffered severely. On the places above named, out-houses, fences, fruit trees, &c., were blown down. Where wheat, cotton, rye, &c., were growing, corn has been planted. Hail stones fell as large as hen eggs, and to the depth of eighteen inches. On the 6th, there was plenty of hail in the rifts and washes.—Keowee Courier.

AN EMBRYO SCHEME.—We are told that a company has been formed at Washington, to establish a settlement on the Northern coast of Mexico, and its agent has been nominated Consul at Magdalen. They hope that the Mexican Commission will recommend the annexation of Northern Mexico and Sonora to the United States in payment of the claims due to American citizens. Caleb Cushing, Gen. Butler and other wide-awake lawyers are said to have their eyes, if not their hands, on this scheme.

THE AIR-LINE RAILROAD.—The Charlotte papers announce that Mr. P. P. Dickinson, of New York, has taken the entire contract for the construction of the Air-Line Railroad from Atlanta to Charlotte, and proposes to let sub-contracts for sections to parties along the line of the road. He advertises for proposals for the grading, masonry and bridging of sixty miles of the road extending from Charlotte to Spartanburg, on which work will be commenced immediately.

Dr. Mary Walker lectured at Brenham, Texas, to a select audience, and took occasion to say that before long the white women of Texas would think nothing of marrying negroes, owing to the "social development." There was a social development there, immediately, some of the ladies interviewing the lecturer, which frightened her so that she "pulled for tall timber," to use a Texas expression. They say you couldn't have seen the Doc's coat-tail for the dust she kicked up with her long heels. She didn't stay to argue that point much.

A Sacramento woman recently stabbed her husband fatally, through jealousy. A crowd, including the coroner and police, gathered around the corner in such numbers that the side-walk gave way, and pitched the whole assembly into a cellar, breaking one man's leg and injuring several. The corpse fell in the middle of the struggling mass.

A despatch from Rome, dated June 3, is as follows: After a long and earnest debate in the (Ecumenical) Council, today, it was decided that the dogma of infallibility shall be proclaimed on the 26th day of the present month, in honor of the feast of St. Peter. Extensive preparations are being made to celebrate the occasion, and it is said the display of pomp and pageantry will surpass any demonstration of the kind ever witnessed in Europe.

Advices from Hays City, Kansas, contain the announcement of an attack by Indians on a mail station, on Bear Creek, between Camp Supply and Hays City, in which two soldiers were killed and a sergeant wounded. At a point below the station, a Mexican servant had been killed and sixty mules run off. A female interpreter reported at Camp Supply a large number of Arapahoes and Cheyennes on the war-path.

HURRYING UP THE MATTER.—About the fastest time on record, we think, in the matrimonial line, was made at Summerville, on Sunday last. A gentleman met a lady, at 10 s. m. on that day, for the first time, was introduced to her, became smitten, proposed, was accepted, and the couple were married at 4 p. m. Neither of the "happy pair" had seen the other before. After the knot was tied, they took the up-train and departed Chicago-ward.—Charleston Republican.

A SAD CASE OF DROWNING.—Charles Russell, a resident of North Nashville, drove his horse and express wagon into the river, opposite the wharf, getting into deep water. He endeavored to extricate himself, but in doing so, he lost his life. The horse was also drowned and the wagon lost. Russell cried for help, but sunk before it could be extended to him. He leaves a wife and two children.

SUDDEN DEATH.—On Friday morning last a colored man, by the name of Edmond Boyd, living and working on the plantation of Mr. Carson Warren, died very suddenly of apoplexy. He was a good man and a faithful worker, and had been in perfect health up to the moment of his death.—Edgfield Advertiser.

The editor of the Hancock (Kentucky) Messenger, in a farewell address in his expiring journal, regrets that he "has not had the pleasure of writing the obituary of several of the miserable skinflints of the town." This is the bitterness of impunctuality.

The Supreme Council of Masons of the United States have established an office in Washington, D. C., of which Dr. A. G. Mackey has been selected to take charge. The doctor left for Washington on Sunday last, to make preparations for the removal of his family thither.

A train on the Cheraw and Darlington Railroad, near Florence, on last Saturday, capsized an ox and cart, with the man who was steering the steer, making kindling wood of the cart, and butcher's meat of the ox, but, strange to say, leaving the man uninjured.

Wm. Vanderbilt, Vice-President, and some directors of the New York Central Railroad, ran an express train last week from Rochester to Syracuse, 81 miles, in 61 minutes—the fastest time, it is said, ever made in America.

Rev. Mr. Corley, of Mantla, New York, who, last winter, couldn't see how a Democrat could be a Christian, was, one night last week, caught flagrante delicto with a widow belonging to his congregation. He has absconded.

After a verdict had been rendered in a late trial in Austin County, Texas, the Judge addressed the jury in this way: "By your verdict, you have said the accused is guilty of no crime. Your verdict being contrary to law, contrary to the evidence, and contrary to the charge of the Court, the Court disapproves of your action in the strongest possible manner. It is by such verdicts as this upon the part of petit jurors, that Texas has been brought into disrepute among the other States of this Union."

SOUTHERN AND ATLANTIC TELEGRAPH COMPANY.—This company, says the Charlotte Observer, has been organized under the laws of the State of New York, and as directors, we see the names of a number of prominent Southern men, among them Colonel Wm. CIRCUIT COURT—THURSDAY, June 9.—The Court met, pursuant to adjournment, his Honor Judge Melton, presiding:

The grand jury returned a true bill in the case of the State vs. W. W. Sampson—indictment for forgery and counterfeiting.

The case of the State vs. R. Berry, indicted for murder, was not argued—the jury returning a verdict of "not guilty," without leaving their seats—it being clearly shown that the killing was accidental.

At half-past 1, the Court adjourned.

CRUMBS.—Yesterday afternoon, we had a regular old-time summer storm; the rain fell in torrents, accompanied by sharp flashes of lightning and a liberal amount of thunder. The despatches speak of terrific storms in different portions of the country.

The census-takers will be pleased to hear of an increase of their pay fifty per cent., the measure having passed both Houses of Congress.

PURITY VS. POISON.—There is as much difference between PHALON'S VITALIA OR SALVATION FOR THE HAIR, and the fifth-charged hair-darkeners, as between the Pool of Bethesda, that an angel stirred, and a fever-breeding mud pond. The Vitalia is crystalline fluid, without a single impurity or noxious property, and the naturalness of the shades it imparts to grey hair is unequalled. J5 43

WOMAN'S RIGHTS.—One who has long studied this absorbing subject now presents to the women of our country the result of his investigations. He is happy to say that he has at last discovered "The Woman's Best Friend." It is adapted, especially, to those cases where the womb is disordered, and will cure any irregularity of the "menses." Dr. J. Bradfield's Female Regulator acts like a charm in "whites," or in a sudden check of the "monthly courses" from cold, trouble of mind, or like causes, by restoring the discharge in every instance. So also in chronic cases, its action is prompt and decisive, and saves the constitution from countless evils and premature decay. This valuable preparation is for sale at \$1.50 per bottle by all respectable Druggists in the land. Prepared and sold by L. H. Bradfield, Druggist, Atlanta, Ga. A thousand women testify to its merits. J5 6

The best LIVER medicine is HEINITS'S QUEEN'S DELIGHT. This wonderful vegetable compound acts with certainty upon the Liver and Stomach, without impairing the functions of any other organ. It invigorates, restores, improves the general condition of the system, regulates the Bowels by its aperient properties; stimulates the Liver and makes it act; strengthens the digestion and gives tone to the man. It awakens the dull and sluggish Liver to activity and life. This is, of all the season, the time to try it and get a bottle from Heinits—you will not regret it. J5

The attention of our readers is called today to the advertisement in another column, headed Lippman's Great German Bitters, a preparation that has been used for upward of a century in enlightened Europe with the greatest success in the cure of Dyspepsia or indigestion, Constipation, Loss of Appetite, Liver Complaint, loss of tone in the digestive organs, &c. The proprietors, Messrs. Jacob Lippman & Bro., Savannah, Ga., have, at considerable outlay, succeeded in obtaining the original recipe for making this delightful tasting Bitters, and pledge their reputation that in preparing it, the original standard shall be kept up.
